

National Survey of Likely Voters

Conducted By:
Freedman Consulting
McLaughlin & Associates
March 2025

Methodology

Freedman Consulting and McLaughlin & Associates conducted a national survey among 2,000 likely voters between March 13-18, 2025. Some questions were split into samples of 1,000 likely voters.

All interviews were conducted online. Survey invitations were distributed randomly within predetermined geographic units. These units were structured to correlate with actual general election turnout.

The numbers in this presentation have been rounded and may not equal 100%.
